

EYEWEAR LIMITED LIFETIME WARRANTY

All non-prescription Wiley X, Inc. eyewear is warranted to the original purchaser for life against manufacturing defect in materials and workmanship (except Light Adjusting [L.A.] lenses, which have a tint adjustment life of 18 months. Proof of Purchase for L.A. lens products required). Original purchaser must include a shipping, handling and processing fee of \$9.00 and applicable tax (to be paid by credit card) with any warranty claim. To begin warranty/repair evaluation process or for additional information about the Wiley X, Inc., Limited Lifetime Warranty, go to <http://www.wileyx.com/support/warranty.aspx> or call 800-776-7842.

PRESCRIPTION FRAME WARRANTY

Wiley X, Inc., prescription sunglass warranties must be handled through the local retailer or dispensing optician you originally purchased from. **Proof of purchase required.** Warranty is for 1-year, but is void if prescription was originally handled by any lab "not authorized" by Wiley X, Inc. For additional assistance regarding prescriptions, please refer to the FAQ's at <http://www.wileyx.com/prescriptions>

FROM THE BATTLEFIELD TO THE FIELD AND STREAM

The same technologies that have made Wiley X a favorite of America's fighting forces in the field

help protect America's fishermen and hunters too.

PATENTED FACIAL CAVITY™ SEALS

Our patented removable soft foam Facial Cavity Seals block out all peripheral light, allowing the Filter 8™ polarized lenses to work at peak performance. So anglers see through the water better, and waterfowl hunters are better equipped for high glare conditions. These gaskets also block out wind for a secure fit when running a boat, ATV or motorcycle at high speeds. They protect the eye from dust and pollen while providing comfort to those with Dry Eye Syndrome. Blocking out light, wind and debris also greatly reduces eye fatigue.

ANSI CERTIFIED SHATTERPROOF SELENITE LENSES

Wiley X glasses are ANSI Safety certified, able to withstand 20 .25 caliber pellets fired at 150 FPS and a 1.1 lb. projectile dropped from 50". That's ultimate protection against ejected brass, ricocheting shot, errant jigs or anything in the air while ripping across the water in a boat. ANSI Z87.1-2003 high impact certification qualifies all Wiley X eyewear as OSHA Occupational Eye Protection.

Wiley X has earned the distinguished designation of being ISO 9001:2008 certified. This verifies that our production processes and products meet the highest quality standards.

LENS TECHNOLOGY

LENS ANATOMY

 **SMOKE GREY LENSES*** Maximum glare reduction. Won't distort colors. Excellent in bright/glare conditions. Light transmission: 15%, 11% Polarized.

 **LA™ LIGHT ADJUSTING SMOKE GREY LENSES** Darken as the brightness of the sun dictates. Maximize optical clarity. Light transmission: 85% to 17% (in sunlight).

 **CLEAR LENSES** Maximum light transmission. See precise color values. Hazy or overcast, dusk/dawn conditions. Light transmission: 89%.

 **SMOKE GREEN LENSES*** Maximum glare reduction without distorting colors. Great for general daytime use. Light transmission: 21%, 17% Polarized.

 **BRONZE LENSES*** For superior visual definition. Increase contrast, enhance ground level contours in most light conditions. Light transmission: 20%, 19% Bronze Flash (Crimson Brown), 19% Silver Flash (Bronze), 13% Polarized Bronze.

 **LA™ LIGHT ADJUSTING BRONZE LENSES** Darken as the brightness of the sun dictates. Darkens on bright days, clear on overcast days. Maximize optical clarity. Light transmission: 82% to 21% (in sunlight).

 **LIGHT RUST LENSES** Filter out blue light waves, the chief component of glare and haze. Enhance contrast in medium to low-light conditions. Light transmission: 53%.

 **CORAL PINK LENSES** Improve details and enhance depth perception when encountering low or artificial light conditions. Light transmission: 19%.

 **SILVER FLASH (SMOKE GREY) LENSES*** Multi-coat, Z-Oxide mirror over smoke lenses. Reduces glare. Excellent on bright days. Light transmission: 7%, 10% Polarized.

 **BLUE MIRROR (GREEN) LENSES*** Multi-coat, green lenses. Absorb reflections across mirror surface, diminish glare. Ideal in bright conditions. Light transmission: 10% Polarized.

 **EMERALD MIRROR (AMBER) LENSES*** An amber tinted lens under an emerald green multi-coat mirror surface that's specially designed to amplify color contrast and deliver high visual definition. Distinct colors and crisp acuity in all light conditions for superior vision performance. Light transmission: 12% Polarized.

 **VERMILLION LENSES** Are best for medium to low light conditions. Sharpens contrast and brightens targets. 50% light transmission.

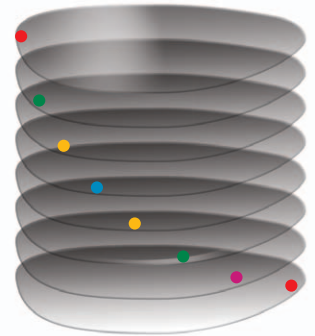

*Polarized available in select styles.

FILTER 8™ TECHNOLOGY

Wiley X polarized lenses have eight layers to clarity:

SLICK™ ●

Clear optical coating is a super hydrophobic mixture that repels water, salt water and ice from the lens. It prevents surface spotting. This advanced coating makes smudges and stains easy to remove with soft micro fiber cloth enclosed with all Wiley X frames.

T-SHELL™ ●

This flexible hard coat adds an extra layer of scratch resistance to each lens for added protection and longer life. Keeps the lens from cracking or crazing to maintain clear vision.

SELENITE™ POLYCARBONATE LENSES ●

Source of the shatterproof reliability of Wiley X lenses. Each lens is die-cut from a larger lens blank to eliminate distortion and provide optical clarity at all angles. 10x more impact resistant than glass or resin lenses and easily exceeds global impact standards.

FILTER 8™ POLARIZED FILM ●

This proprietary film adds 100% polarization to 100% ultra violet protection for unequaled clarity and contrast. In conjunction with our other high tech coatings, allows fantastic amount of light to reach the eyes' pupils. Helps achieve perfect visual acuity.

VIOLET 4™ AR (ANTI-REFLECTIVE) COATING ●

Adds another optical filter to each lens to eliminate back-lit glare, a major cause of eye fatigue and strain.

TAKING THE WORK & PLAY concept to new heights; most Wiley X ANSI approved frames can accommodate prescription safety lenses up to +6.00/-6.00 Total Power. Certain restrictions apply—ask your Account Representative for more details.

MEETS AND EXCEEDS ANSI Z87.1-2003 high velocity impact safety and optical standards.

OUR PROPRIETARY POLARIZED LENS TECHNOLOGY adds 100% polarization to 100% ultra violet protection for unequaled clarity and contrast.

OUR PATENTED REMOVABLE FACIAL CAVITY™ SEAL blocks out wind, debris and peripheral light.

MEETS OR EXCEEDS the military's stringent MIL-DTL-43511D (goggles) and MIL-PRF-31013 (spectacles) ballistic standards.

CLIMATE CONTROL™ SERIES

Protect your eyes from whatever Mother Nature throws your way. Wiley X patented removable soft foam Facial Cavity™ Seals form to your face, blocking out wind, dust, debris and peripheral light while amplifying polarization and reducing eye fatigue.
